

ABC College of Engineering
Internal Examination

Subject: Computer Fundamentals

Time: 3 Hours

Max Marks: 40

Section A

1. What does HTML stand for?

- A. Hyperlink Text Markup
- B. HyperText Markup Language
- C. Hyperlink Markup Text
- D. HyperText Markup Link

2. Which of the following is a type of HTML tag?

- A. Header
- B. Paragraph
- C. Image
- D. All of the above

3. What is the purpose of the <title> tag in HTML?

- A. To set the background color of the page
- B. To display a heading on the page
- C. To specify the title of the page
- D. To create a hyperlink

4. What is the function of the <meta> tag in HTML?

- A. To define a paragraph of text
- B. To specify the character encoding of the document
- C. To create a table
- D. To insert an image

5. What is the name of the attribute that specifies the source of an image in HTML?

- A. href
- B. src
- C. alt
- D. title

Section B

1. What is the primary function of the meta tag `http-equiv="Content-Type"` in an HTML document, and how does it relate to the `Content-Type` header in HTTP?
2. Describe the purpose of the CSS `box-sizing` property and its potential impact on webpage layout, including how it differs from the default `border-box` and `content-box` models.
3. Explain the role of the HTML `noscript` tag in handling situations where a user's browser has JavaScript disabled, and provide an example of its use in a form.

Section C

1. Explain the concept of cloud computing and its application in modern computing systems, providing examples of different cloud service models (IaaS, PaaS, SaaS) and their benefits.
2. Discuss the importance of cybersecurity in the context of computer systems, highlighting the key threats and vulnerabilities associated with networked environments.
